**Subject:** RSC Requests

Hi Wendy,

It was nice chatting with you yesterday. Thanks again for reaching out to your RSC team to check their availability to support our efforts on Gold King and Typhoon Soudelor.

I know we talked about R9's request but I just wanted to send you an email that listed the RSC request. As of right now we are requesting the following:

- RESL – priority for Gold King
- ESF#10 at JFO – Dale Becker is on standby for Nonresponsive 8/17 – 9/4
- FSC – availability inquiry for Gold King. We have a R9 FSC identified and we're just wanting to see if we get manager approval.

Please let me know if you have any questions.

Thanks,

Tana Alert
